

Combination Buret Outfits

In addition to our other standard products, LaMotte also packages combination buret style outfits. These outfits are packaged in cases made of rugged ABS plastic in sizes to fit three to five burets and accessories. The automatic burets and accessories are mounted in plastic clips over a white plastic workshelf in one half of the cabinet. The other half of the case is equipped with foam-lined shelves to hold additional tests or accessories. Colorimetric and titrimetric tests may be added to the buret titrations.

To order, simply choose the desired test reagents from the list on page 66 and select any additional tests from the A - Z section (pages 41-55) or the instrumentation section (pages 8-35). Squeeze valve (pinchcock) style burets are standard equipment with these kits, but glass or Teflon® stopcock burets may be ordered for an additional charge.

Model AB-152

Order Code 7643-01 [Ship Code LQ]

Factor	Method	Equivalence [# Tests]
pH	Alkaline Wide Range	pH 8.5-12 [50+]
Phosphate	Stannous Chloride	0-10 / 0-100 ppm [50+]

Factor	Method	Equivalence [# Tests]
Alkalinity	Neutralization	1 mL = 1.0 mg [50+]
Chloride	Argentometric	1 mL = 0.5 mg [50+]
Hardness	Complexometric	1 mL = 6 0.25 mg [50+]
Sulfite	Iodometric	1 mL = 1.0 mg [50+]
